## European Commission supported projects

### iSERV

This project aim to collect sub-hourly HVAC system energy use data from around 1600 HVAC systems in the EU Member States and analyse this information.

iSERV project benefits are mainly:

- feedback on energy use patterns and comparisons with similar systems
- establish a detailed understanding of the energy consumption of HVAC systems
- how to improve in-use energy efficiency of HVAC systems
- identify performing systems to avoid their inspections

More information on this project will follow.

### BUILD UP +

The Commission has decided to continue developing and updating the BUILD UP portal for building energy efficiency related information at least to the end of 2013. REHVA is one of the organisations updating the information at the portal. If you have interesting cases, publications or events go [www.buildup](http://www.buildup) and upload your information.

Current status of the portal:

- Over 600 visitors a day
- English is the main language but material in all 23 EU languages is accepted (headlines in 22 languages)
- Search by language, theme, topic, keyword, date, country, etc.
- Status in March 2011: 1909 publications, 1130 links, 161 cases, 147 tools, 49 upcoming events, 27 communities
